

35 GT COUPE

OVERVIEW

Building off the extremely versatile and popular 31' GT Coupe, the 35' model provides all the space and arrangements you could ask for with still retaining the nimble "do anything" aspect clients love so much about its smaller sibling.

The refined deep "v" hull coupled with innovative enhancements, provides unmatched performance. Inside the cabin you will find amenities tailored to suit every member of the family. A stand up bathroom is conveniently located in the lower cuddy, as well as dual beds which convert to one queen sized sleeper and in the main galley you will find a compact galley.

Not to forget the fisherman, the boat is available with two 36" long fish boxes, downrigger pads, and welded on rod holders.

The boat comes standard with our signature folding bow door, and underdeck anchor windlass.
